# 75% Funded upskilling support available for Businesses and Social Enterprises

– with fewer than 250 employees

[Bsc.nwrc.ac.uk](http://Bsc.nwrc.ac.uk)

**Skills Focus**

**North West Regional College (NWRC) is a high quality provider of specialist training and upskilling programmes to a range of employers across the region.**

Skills Focus funding is available for training courses for SME's and Social Enterprises with less than 250 employees.

As part of this funding, the college provides accredited courses (Level 2 and above) and tailored courses to meet the specific needs of businesses and social enterprises.

We deliver high quality programmes at our three campuses in **DERRY-LONDONDERRY, LIMAVADY & STRABANE** in the following areas:

### **Business and Professional Programmes**

Contact Cathal on 07436581257 or email [Cathal.Ferry@nwrc.ac.uk](mailto:Cathal.Ferry@nwrc.ac.uk)

# Skills Funding Options

- **Funding for Businesses**

Skills Focus is a Department for the Economy (DfE) funded programme aiming to increase the skills levels, motivation and productivity of the existing workforce by offering industry specific and accredited qualifications at level 2 and above. This programme is open to businesses and social enterprises with fewer than 250 employees.

- **Funding for Foreign Direct Investment Companies**

The DfE-funded Assured Skills programme is a short, demand-led, pre-employment training programme, which is fully funded by the Department for the Economy, to upskill individuals and help them compete for guaranteed job vacancies in new foreign direct investment (FDI) companies and expanding indigenous businesses.

- **Skills Academies**

Skills Academies offer pre-employment training to candidates needing skills for new employment opportunities. These programmes give individuals the skills that employers are looking for in a range of priority areas.

- **Higher Level Apprenticeships**

In addition to traditional apprenticeships, HLAs are a work-based learning programme (1 day in the NWRC, 4 days at the business) enabling participants to earn while they learn and progress the workforce through training and skills development, in qualifications at levels 4 and 5. Businesses can avail of the HLA programme for newly recruited staff, as well as a training opportunity for existing staff, to upskill and progress in the workplace. Example areas are accountancy, software development, engineering, hospitality & tourism and childcare.
